~ FAST START GUIDE ~

IT ALL BEGINS HERE...

Welcome!

My name is Lucas Adamski and I'm the creator of Easy Little Flips. I spent a great deal of time perfecting this training in order to give you great results. I flipped dozens of sites and each method I'm going to share with you <u>WILL WORK</u>. If you take action **YOU WILL MAKE MONEY.** There is no doubt in my mind. I'm a freaking perfectionist and when I put my name on something, I DO DELIVER.

The purpose of this Fast Start Guide is to help guide you through this insanely large course in the most effective way. It doesn't replace the content of the lessons, but will help you absorb the scope of the content.

I'm going to tell you exactly what you can expect from each module so you know where to find the content you are most interested in. You should also go through each module and see all the flipping methods. But, I must warn you, the whole course is a solid 15 and a half hours altogether. That's pure content, not including implementation :) And yeah, it's not me talking theoretical stuff, it's hardcore, no-fluff, right into the dirt, step-by-step action text and videos.

Enjoy!

WHAT YOU'LL FIND IN EACH MODULE:

Depending on your current skill levels in internet marketing (difficulty level) and your budget and time, you may select the most appropriate method for you. Potential shows how far can you scale this method and what's the potential in profits.

The first modules are exact step by step videos showing each step you need to take from buying a domain name to selling a site. Module 8 shows my quick, little-known bonus methods to make quick flipping cash, but I don't dive there that deep into the technical details.
