

10 days to Passive Income

Niche Market Selection Guide

This step often gets people stuck paralyzed trying to make a decision. This is completely unnecessary since at this point in time... ANY major niche market can be wildly profitable. There is no special skill or “trick” to picking your niche.

The list we’ve provided below is all you need. Just select one of the niche’s listed and you’ll be ready to start your journey to predictable passive income!

Today you’re going to pick your broad niche category. That’s all you have to decide today. In future lessons we’ll help you narrow it down and come up with a more specific topic for your site.

Plus, be starting from a broad niche... it allows you to adjust and change direction to some degree. For example, if you selected the Outdoors, Camping & Survival Niche – you could have a survivalist website, but then if you change your mind and want to cover fishing or camping... you absolutely could do that without changing your site!

There’s no need to worry!

It’s more important to just make a decision and immediately move forward. At any time, Profit Platform can always help you build another website if you want to start over or make a change.

Your Niche Market Choices:

Here's a list of all the major niche markets. For this step in the challenge, you just need to pick ONE. Any of them will work here. There's no wrong answer. Just pick the one you like the best and go with it.
